VINYL LURE AND JIG FINISH

The toughest finish ever put on a lure. The vinyl characteristic of this paint makes it extremely effective against chipping. Lures can be dipped or sprayed. Spraying may require multiple coats.

For best results on fluorescent colours use the white undercoat. (The white may also be used as a finish coat.)

To obtain a HIGH GLOSS apply CLEAR as a finish coating.

Glow is highly PHOSPHORESCENT and will glow up to 16 hours. (For best results use two coats over white undercoat.) Glows a bright luminescent Green.

Vinyl Finish colours have a shelf life of 1 to 3 years.

Vinyl Lure and Jig Finishes cannot be exported from Canada.
